

1st Place

Plenary

Dr Arun Valsan

Amrita Institute of Medical Sciences Kochi

I

Topic: A placebo controlled, randomized, double blinded trial to evaluate the use of Tolvaptan for correction of hyponatremia in liver cirrhosis patients (SCOTcH trial)

2nd place

II

Dr Nipun Verma

PGIMER Chandigarh

Topic: Liver dysfunction and systemic inflammation drives organ failures among hospitalized patients with acute decompensation of cirrhosis: a multi-centric study

3rd place

III

Dr Pratibha Garg

PGIMER Chandigarh

Topic: A novel proteomic approach for diagnosing and treating infections in acute decompensation of cirrhosis

Young investigator

1st place:

DR. Divya P Kumar

I

Divya

JSS medical College Karnataka

Topic: Silencing of Hepatic AATF Ameliorates Metabolic Dysfunction Associated Steatohepatitis by Promoting Fatty Acid β -Oxidation in Experimental models

2nd place

Deepika Jakhar

II

ILBS, Delhi

Topic: Increased Stool Urease activity correlates with Hyperammonemia and is an Independent Predictor of Overt hepatic encephalopathy in Cirrhosis Patients

3rd Place

Dr Sweta Rose

III

PGIMER Chandigarh

Topic: Rifaximin Improves Frailty In Patients With Decompensated Cirrhosis: Randomised Trial

Poster basic

Id: 657 Score: 82 (I)

Name: Aarti Sharma

Institute: ILBS delhi

(I)

Topic: Hepatic lymphangiogenesis regulates biliary cell proliferation during liver regeneration after partial hepatectomy

Id: 462 Score: 80 (II)

Name: Dr Hiteshi Dhama Shah

Institute: IIT Mumbai

(II)

Topic: Hepatic triad in 3D: Studying liver functionality through spheroid culture for establishing fatty liver

Id: 556 Score: 80 (II)

Name: Dr. Sonu Kumar

Institute: All India Institute of Medical Sciences New Delhi

(II)

Topic: Genome wide association study to identify the potential genetic loci responsible for Budd Chiari Syndrome in Indian population: Study from a tertiary care centre

Id: 552 Score: 77.5 (III)

Name: Dr. Smita Mary Matthai nee Zachariah

Institute: Christian Medical College, Vellore

(III)

Topic: Microcirculatory Disturbances in Acute Liver Failure " An ultrastructural study of immediate post mortem liver biopsies from seven patients

Poster clinical

Id: 676 Score 84 (I)

Name: Shenoy K T

I

Institute: Sree Gokulam Medical College and Research Foundation

Topic: Haptoglobin genotypes and their association with metabolic risk factors and liver stiffness among non alcoholic fatty liver disease (NAFLD) : A population nested case control study

Id: 723 Score 80(II)

Name: Susan George

II

Institute: Government Medical college Thiruvananthapuram

Topic: Optimising MASLD management: Understanding the Importance of Mental Health and Body Composition

Id: 399 Score 78 (III)

Name: Mohammad Tabish

III

Institute: AIIMS, Delhi

Topic: Addition of simvastatin to carvedilol improves survival in patients with decompensated cirrhosis after variceal bleed. A randomised controlled trial

Id: 651 Score 77 (IV)

Name: RASHID KK

IV

Institute: : GOVERNMENT MEDICAL COLLEGE, THIRUVANANTHAPURAM

Topic: Correlation of liver fibrosis to Carotid Intima-Media Thickness and cardiovascular risk in Metabolic Dysfunction Associated Steatotic Liver Disease

Id: 623 Score 76 (V)

Name: CHENNAKESHA THUNGA

V

Institute: PGIMER Chandigarh

Characterization of Pediatric Non-Alcoholic Fatty Liver Disease & Prevalence & Risk factors for Small Intestinal Bacterial Overgrowth in these Children

Young Investigator:
